EDL-GEN ORGANIZE A TECHNICAL LEARNING WORKSHOP

EDL-Generation Public Company (EDL-Gen) organized a workshop to review and exchange lessons learned in management, production operation, water management, and maintenance. The event served as a platform for technical knowledge exchange for the first six months of 2024. It was held from November 12-13, 2024, at the main conference hall of Electricité du Laos Headquarters in Vientiane Capital. The details are as below:

1. Discussions were held on management practices, production operations, water management, and maintenance activities managed by the generation department in 2024.
2. Participants, including representatives from various divisions, hydropower plants, and other relevant stakeholders, shared insights on challenges and exchanged technical lessons learned from operations at all hydropower plants.
3. The workshop featured a ceremony to present certificates of appointment to 13 specialists who passed the required evaluations. The ceremony was presided over by Mr. Daovieng Sounanthalath, Acting Managing Director of EDL-Gen, who provided guidance, engaged in discussions, and officially concluded the event.
